I am a developer looking to contribute in a positive learning environment. I am passionate about test driven development, enjoy pair programming, deconstructing problems and am comfortable programming solo. I love teaching, learning, delivering great code and have strong customer relations experience.

Projects

TenThousand   github.com/craftninja/ten_thousand

A personal project. Ruby on Rails with RSpec, Capybara, PostgreSQL, hand rolled user authentication, ActiveRecord relations, game logic and fun.

Phone Interview Me   github.com/craftninja/DenBou_phone_interviewer
